Matching the profile and style of the Wall Wash Lights, the beauty and simplicity of this linear pendant provide exceptional lighting in the most minimal form possible. Ideal for residential kitchens and dining rooms or in the hospitality industry, this light comes in a wide variety of customizable formats.

As is typical of Mike's designs, sustainability principles are fundamental. He only uses North American hardwoods (Eastern Maple, Ash, White Oak and Black Walnut) and all the finishes and glues meet Mike's strict "Home Friendly" criteria. In addition to this, all the electronic components are fully serviceable, extending the S-Lights's life well past that expected of the electronics. Details on product care, service options and warranties can be seen [here](#).

Wood Finish Options
